# Survey Results Among Users of the Scientific Repository: COVID-19 and Maternal and Child Health, Nutrition

5 August 2020

## Ranked Usability of Repository

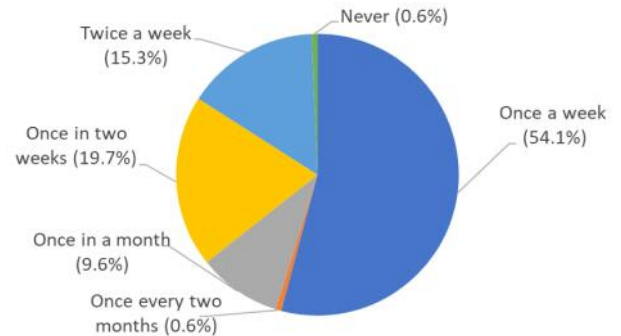

## Duration of Repository Service

## Do Users Forward the Repository? How?

## Users' Preference for Update Frequency

## Comments and Suggestions for Improvements (n=60)

### Positive Feedback

'Please continue to provide this vital information'	'It is a fantastic resource, will be sorry to see it end.'
'This is such a wonderfully helpful resource! It has informed my education of hospitals for NICU and maternity unit policies.'	'I think its a brilliant idea, thanks for your great work. I have no other suggestion.'
'Thank you so much for your hard work with this. I cannot convey how much impact it has on my work, and therefore the lives of everyone impacted by the policy I help create using the most current evidence.'	'At the moment I have no suggestions. I am very grateful for this repository and appreciate the time and effort that has gone into creating it and keeping it up-to-date.'
'We have got so much from your information about maternal and children health associated with COVID-19.'	'I think the repository is working extremely well. I am very grateful for it. It has saved me a lot of time.'

### Search Engine and Other Suggestions

'Make it easy to Google and find it.'	'Provide overall synthesis of state of evidence.'
'Simplify access to the website and make translation possible in many languages.'	'Country-wise publication search.'
'It would be great if this repository gets some web design funding so that it is a bit easier to navigate by topic and easier on the eyes as we spend so much time looking at screens.'	

16/60 expressed the need for a search engine or improved navigation tools.
